EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Allowable Subject Matter

2. Claims 1-2, 5, 7, and 9 are allowed.
Claim 1-2, 5, 7, and 9 are independent claims.

The following is an examiner's statement of reasons for allowance:

As to claims 1 and 5, the present invention from the application discloses a printing system and method comprising "a correcting section (step) adapted to correct the second image information based on a quantity of heat shrinkage of the recording medium generated by the heating operation in the fixing section".

As to claim 2, the present invention from the application discloses a printing system comprises provided in at least the second printer, for correcting the second image information based on a quantity of heat shrinkage of the recording medium generated by the heating operation in the fixing section".

As to claim 7 and 9, the present invention from the application discloses a printing system and method comprising "a correcting section adapted to determine a quantity of heat shrinkage of the recording medium generated by the heating operation in the fixing section based on outputs from the first detecting section and the second detecting section so as to correct the second image information based on the quantity of heat shrinkage".

However, prior art from an electronic text search fails to anticipate or render the above underlined limitations of claims 1-2, 5, 7, and 9 obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
